

Snowy 2.0, Australia

# Through our specialist expertise, we're redefining the future of dam rehabilitation

With a 70+ year track record of engineering excellence, the Snowy Mountains Engineering Corporation (SMEC) provides high-quality advisory and consulting expertise across the project lifecycle, from initial concept, feasibility, planning and design through to construction, commissioning, operation and maintenance.

SMEC's globally renowned team of hydropower and dam specialists collaborate with local expertise to deliver technically advanced and innovative solutions. Our experience includes some of the largest and most complex dam projects in the world.

In partnership with our clients, we are focused on providing sustainable hydropower and dam solutions and redefining the future of dam rehabilitation.
