

FROM THE DESK OF  
CHAIR | INCOLD - YEF  
AD HOC COMMITTEE

- AMIT GAUTAM

***“We cannot always build the future for our youth, but we can build our youth for the future”***

-Franklin D. Roosevelt

- It gives me an immense pleasure to inform you all that we have finally launched the Indian National Committee on Large Dam’s Young Engineers Forum.
- Friends, I strongly believe that we as an Young professional have lot to offer & learn. There can be no other better way to drive and improve our Nation’s prosperity and social economic well-being than youth participating in it, be it any field.
- Here, at INCOLD - YEF we are creating an International level platform for knowledge exchange and learning by utilizing the rich portfolios of International and National Stalwarts of Dam Engineering.
- I want all of you to believe that with help of each and everyone we are going to create an exemplary model of knowledge sharing and learning platform.
